

**REGIONAL DISTRICT OF CENTRAL OKANAGAN
GOVERNANCE AND SERVICES COMMITTEE MEETING
AGENDA**

Thursday, June 13, 2019

8:30 a.m.

Woodhaven Board Room
1450 K.L.O. Road, Kelowna, BC

Pages

1. CALL TO ORDER

Chair Given acknowledged that this meeting is being held on the traditional territory of the Syilx/Okanagan Peoples.

2. ADDITION OF LATE ITEMS

3. ADOPTION OF THE AGENDA

Recommended Motion:

THAT the agenda be adopted.

4. ADOPTION OF MINUTES

4.1 Governance & Services Committee Meeting Minutes - May 9, 2019

1 - 5

Recommended Motion:

THAT the Governance & Services Committee meeting minutes of May 9, 2019 be adopted.

5. DELEGATION

5.1 Economic Development Commission Strategy to 2025 (45 min workshop presentation)

6 - 24

Facilitated by consultant MDB Insight Inc., Lauren Millier, Executive Vice President

Recommended Motion:

THAT the Economic Development Commission Strategy to 2025 presentation facilitated by Lauren Millier, Executive Vice President of MDB Insight Inc. be received.

6. COMMUNITY SERVICES

6.1 Agricultural Compliance and Enforcement Strategy

25 - 27

Recommended Motion:

THAT the Governance & Services Committee receive the presentation from the Director of Community Services, dated June 13, 2019, regarding the Regional Agricultural Compliance and Enforcement Strategy for information.

7. ADJOURN

Directors:

M. Bartyik (Central Okanagan East Electoral Area)
C. Basran (City of Kelowna)
W. Carson (Central Okanagan West Electoral Area)
M. DeHart (City of Kelowna)
C. Fortin (District of Peachland)
G. Given (City of Kelowna)
S. Johnston (City of West Kelowna)
R. DeJong, alternate for G. Milsom (City of West Kelowna)
B. Sieben (City of Kelowna)
L. Stack (City of Kelowna)
L. Wooldridge (City of Kelowna)
T. Konek (Westbank First Nation)

Absent:

J. Baker (District of Lake Country)
C. Hodge (City of Kelowna)

Staff:

B. Reardon, Chief Administrative Officer
T. Cashin, Director of Community Services
J. Foster, Manager of Communications
C. Griffiths, Director of Economic Development
D. Komaie, Director of Engineering Services
M. Kopp, Director of Parks Services
M. Drouin, Manager - Corporate Services (recording secretary)

1. CALL TO ORDER

Chair Given called the meeting to order at 8:30 a.m.

This meeting is being held on the traditional territory of the Syilx/Okanagan Peoples.

2. ADDITION OF LATE ITEMS

There are no late items for the agenda

3. ADOPTION OF THE AGENDA

#GS25/19

STACK/WOOLDRIDGE

THAT the agenda be adopted.

CARRIED unanimously

4. ADOPTION OF MINUTES

4.1 Governance & Services Committee Meeting Minutes – April 11, 2019

#GS26/19

WOOLDRIDGE/DEHART

THAT the Governance & Services Committee meeting minutes of April 11, 2019 be adopted.

CARRIED unanimously

Director Sieben arrived at 8:33 a.m.

5. DELEGATION

5.1 Central Okanagan Search & Rescue - Update on Service Provided Within the Central Okanagan, Karen Gretzinger, secretary for COSAR presenting a verbal update.

COSAR updated the Committee noting the following:

- Registered non-profit organization.
- Runs on volunteers – 52 members, are not paid for their service.
- One of 80 SAR groups. Fifth busiest in the province.
- Responds to over 60 tasks per year, 10,000+ hours training, admin, logistics, services equipment, fundraising and community service.
- An overview of COSAR's history was outlined.
- More responsible now for technical gear, specialized equipment and safety.
- Current need is a larger facility to store equipment, vehicles, office and training facility.
- Goal today is to bring forward the current needs—optimally at 15,000 sq.ft facility, centrally located in Kelowna.
- Provincial funding is specific (equipment and training) and cannot be directed towards facilities.

Question and answer session followed.

Director Basran arrived at 9:03 a.m.

Director Johnston left the meeting at 9:06 a.m.

#GS27/19

FORTIN/WOOLDRIDGE

THAT the Central Okanagan Search & Rescue update be received for information.

CARRIED unanimously

Director Johnston returned at 9:09 a.m.

6. CORPORATE SERVICES

6.1 Transfer Station Operations and Service Review

Staff report dated May 1, 2019 outlined that consultant Morrison Hershfield had been contracted to conduct an operations and service review of the North Westside Transfer and Trader's Cove Transfer Stations. Staff outlined the consultant's report and recommendations.

- Customer satisfaction survey results outlined (194 responses received)
- On-site composting review occurred as part of the survey.
- Cost benefit analysis is required for options presented.
- Site improvement recommendations were outlined.
- Additional service hours has not been budgeted in 2019.
- Some work will be done this year at Trader's Cove, further budgeting will be brought forward in 2020 for both sites.

#GS28/19

CARSON/BARTYIK

THAT the Governance and Services Committee receive for information the Transfer Station Operations and Service Review report dated May 1, 2019;

AND FURTHER THAT the consultant's recommendations be considered as part the 2020 Financial Plan deliberations.

CARRIED unanimously

6.2 2019 Recycling Contamination Reduction Plan

Staff report dated April 30, 2019 outlined plans to reduce recycling contamination in the curbside recycling program. Staff outlined the issues and the plan to reduce contamination.

- Multi Material BC formed in 2011 – now Recycle BC.
- Stewardship organization to represent the industry.
- As a collector, each local government receives financial incentives which offsets the cost of the program.
- RDCO provides the services for recycling throughout the region.
- Obligated to ensure clean loads of recyclables. If loads are contaminated there are fines enforced.
- Plan developed for 2019 with focus to reduce contamination - \$30K plus staff time has been directed to the Plan. Monitoring and enforcement program will occur over the next four months
- Promotion and education campaign will occur this year—cart sticker pilot, Be Cart Smart campaign, community education.

Question and answer period followed.

#GS29/19

SIEBEN/DEJONG

THAT the Governance and Services Committee receive for information the April 30, 2019 Recycling Contamination Reduction Plan For 2019 report.

CARRIED unanimously

7. ENGINEERING SERVICES

7.1 Electoral Area Water Rates Service Review

Staff report dated May 1, 2019 provided an update on the water system fees and charges for each of the six Regional District owned and operated water systems.

Proposed bylaw amendments will allow for the gradual increase in user fees over the next 3.5 years by the anticipated rate of inflation of 2%. Amendment to the Water System Regulation Bylaw No. 1370 will adjust the fees recovered for example water meters and new service connections.

Staff reviewed the increases proposed.

- User fees , Consumption fees and Asset renewal fees
- Asset management investment plan – some systems are doing very well (Upper Fintry, Shalal, Valley of the Sun); on the other side for example, Westshore has 22% of life expectancy remains.
- Looking to adjust user fees and asset renewal fees, not consumption.
- Information mail outs have occurred to area residents on the proposed adjustments.
- Water systems regulation fees to be adjusted as well.

Question and answer period followed.

#GS30/19

CARSON/BARTYIK

THAT the Governance & Services Committee receive for information the water system fees and charges update for RDCO water systems; and recommends the Regional Board approve first reading to Water System Fees & Charges Bylaws No. 1435, 1436, 1437, 1438, 1439 and 1440.

CARRIED unanimously

Discussion ensued regarding having an information session to further inform the residents of the increases proposed with final adoption of the bylaws to be completed in early June.

7.2 Central Okanagan East Sewer System Fee Review (Sunset Ranch)

Staff report dated May 1, 2019 outlined the East Sewer System User Fees Review for Sunset Ranch. The last review of fees occurred in 2015 and the fees have not changes since January 2016. The user fees are intended to cover all annual operational costs of the sewer system. The asset renewal fees apply to all lots within the service area and are intended to fund capital reserves.

#GS31/19

BASRAN/WOOLDRIDGE

THAT the Governance & Services Committee receives for information the Central Okanagan East Sewer System Fees report, and recommends the Regional Board give consideration and approve Regional District of Central Okanagan Central Okanagan East Sewer Systems Amendment Bylaw No. 1441.

CARRIED unanimously

8. NEW BUSINESS

There was no further business.

9. ADJOURN

There being no further business the meeting was adjourned at 10:55 a.m.

CERTIFIED TO BE TRUE AND CORRECT

G. Given (Chair)

B. Reardon (Chief Administrative Officer)

Economic Development Commission Strategy to 2025 Regional District of the Central Okanagan

Background

The Central Okanagan is situated along the shores of Okanagan Lake in the southern interior of British Columbia and is the largest trading centre between the major Western Canadian cities of Vancouver, BC and Calgary, AB. The area is abundant with rich agricultural land, forested hillsides and mountain peaks and is an attractive tourist destination as well as a popular location for a wide range of businesses.

The Central Okanagan is the fastest growing census metropolitan area in British Columbia and the 6th fastest in Canada, and is home to approximately 208,000 residents and over 28,000 thriving and diverse businesses. Healthcare, construction, manufacturing, agriculture, technology and tourism are major industries in the region while key economic drivers include the University of British Columbia Okanagan Campus, Okanagan College, the Kelowna International Airport (YLW) and the Kelowna General Hospital. The region's economic growth and quality of lifestyle continue to attract new people and businesses to the area.

The Central Okanagan Economic Development Commission (COEDC) is a function of the Regional District of Central Okanagan and provides economic development services to the municipalities and governments of: District of Peachland, City of West Kelowna, City of Kelowna, District of Lake Country, Westbank First Nation and the unincorporated electoral areas of Central Okanagan East and West.

As the Region's primary business resources, the Commission works in partnership to facilitate and encourage the development of a healthy and dynamic sustainable community economy by supporting existing businesses and encouraging business investment within the Central Okanagan.

Individual communities within the Central Okanagan region have both staffing and financial resources designated for the delivery of economic development programs and services. Along with the regional economic development function, the Central Okanagan has economic/business development offices in Kelowna, West Kelowna, Lake Country, Peachland and Westbank First Nation.

The mandate of the COEDC is to work in partnership, to facilitate and encourage the development of a healthy, dynamic and sustainable economy by supporting existing businesses and encouraging business investment to support the communities of the Regional District of Central Okanagan.

The COEDC's goal is to foster a healthy sustainable local economy by supporting local business and encouraging new investment to the region. COEDC activities are aligned with the top regional priorities: 1) to increase awareness of the Central Okanagan provincially, nationally and internationally to strengthen the region's position as a destination for entrepreneurs, companies and skilled workers, 2) to enhance the environment for small and medium enterprise growth, 3) to encourage economic growth in key sectors and 4) to recruit and retain a skilled and stable workforce in the Central Okanagan. The COEDC has focused programming and activities in three core areas of business retention and enhancement, investment attraction, and coordination & connection. To effectively support a strong

and sustainable local economy programming and activities are flexible and responsive to emerging trends and community and industry driven requests.

Specific programming has included annual business walks connecting with local business owners, participation in workforce development delegations, resource development including regional economic profiles, industry specific reports and information gathering including sector profiles, aerospace industry competency study and asset mapping, and agriculture and agritourism business support programs for operators.

The efforts of the COEDC have been recognized as best practices through awards and recognition at provincial, national and international level. Awards include:

- 2018 Economic Developers Association of Canada's Promotion Event Award for the **Annual Sugarplum Event**
- 2017 the Economic Developers Association of Canada's Marketing Canada Awards for:
 - **Ex-Pat Attraction Campaign** - California - Advertising Campaign
 - **'How Does The Okanagan Compare?' Infographic** - Single Publication - over 4 pages
- 2016 International Economic Development Council's Excellence in Economic Development Gold Award for the **Make Digital Media Here: Workforce and Investment Attraction Campaign.**
- 2016 British Columbia Economic Development Association's Community Project Award for the **Make Digital Media Here: Workforce and Investment Attraction Campaign.**

Landscape of the Central Okanagan

The Central Okanagan has dynamic industry sectors, world-class educational facilities, strong transportation infrastructure and an unmatched quality of life. A diverse range of business and recreational prospects means the Central Okanagan is unique, a great place to work, live and do business.

Location: The Central Okanagan is located in the central southern interior of British Columbia, with the Trans-Canada highway passing through its centre, direct road access is available to Vancouver and Seattle on the Pacific west coast (around 400 and 500 km respectively), and to Calgary and Edmonton to the east (around 600 and 900 km respectively).

Proximity to market: The Central Okanagan is within reach of a regional market that exceeds 11.4 million consumers within a range of 900km, equivalent to a one-day journey by road.

Population: The estimated population in the Central Okanagan (Kelowna CMA) for 2018 was 208,864 which represents over 50% of the Okanagan Valley's total population and a growth rate of 2.0% from 2017. The projected population is expected to reach around 279,568 by 2041. The median age of an Okanagan resident is 45.5 years and the fertility rate trends towards 1400 births per thousand women. Population is concentrated around the two largest urban areas of the City of Kelowna and the City of West Kelowna. The Central Okanagan Region is British Columbia's fastest and is Canada's sixth fastest growing census metropolitan area with an overall population increase from 2011-2016 of 8.4%, well above the national and provincial rates of 5% and 5.6%.

Housing: The regional median price for a single detached home trends between \$650,000 - \$800,000, the median price for a Condo/Apt property trends around \$300,000, and a townhome median price is \$478,500 depending in all cases, on the community in which the property is located (Source: OMREB December 2018 YTD Stats).

Rental: An increase in rental purpose housing, built in 2017-2018, eased vacancy rates slightly to 1.9% from 0.2% in 2017. Average rent for a two bedroom apartment in the region is \$1,267, an increase of 10% from 2017 to 2018.

Income: The Central Okanagan (Kelowna CMA) has a household income distribution that matches closely, within 2% differential in each income bracket, with that of BC and Canada. 51% of households in the Central Okanagan have an income of more than \$70,000 annually.

Key Industries: In recent years, billions of dollars have been invested in the area, improving infrastructure and attracting high-growth industries. Key industry sectors include:

- Advanced Manufacturing
- Aerospace /Aviation
- Agriculture and Viticulture
- Construction
- Healthcare
- Retail Trade
- Tourism

Employment by Industry: The four industries in which the majority of the Central Okanagan's workforce is employed include: health care and social assistance (13.1%); retail trade (13.0%); construction (10.9%); and accommodation and food service (9.4%).

Business: Named the best city to open a small business by the Canadian Federation of Independent Business in 2018 and most enterprising region in Canada in 2016 by the Financial Post the region is home to over 28,000 registered businesses. The Central Okanagan's entrepreneurial culture and strong support networks make it an ideal place to start and grow a business as over 8,600 (30.6%) of local businesses have employees.

Labour Force: The total labour force for the Central Okanagan is estimated at 107,000 people representing a participation rate of 65.9%. The four main occupational categories for Central Okanagan's workforce include: sales and service (26.2%); trades, transport, and equipment operators and related (16.2%); business, finance, and administration (14.5%); and management (11.7%).

Economic Drivers: Diversification remains the Central Okanagan's greatest economic strengths. Agriculture, Aerospace, Finance, Manufacturing, Professional Services, Tourism and Technology are all important industries in the region. The Kelowna International Airport and UBC Okanagan (University of British Columbia – Okanagan campus) have emerged as key growth drivers. UBC Okanagan has been a major economic driver since its creation in 2005, bringing to the region direct and spin-off employment, significant capital expenditure, industry partnerships, research dollars, profile and demand for housing. Accessibility through the Kelowna International Airport continues to enhance the area's appeal to both tourists and potential home buyers. The recently completed expansion of Kelowna General Hospital includes health care services previously available only in Vancouver, an important consideration for people seeking to relocate to this region. The Okanagan Centre for Innovation is the hub for innovation,

technology and creativity in downtown Kelowna with an emphasis on accelerating entrepreneurial technology driven companies across all sectors.

Regional District of Central Okanagan Communities

The RDCO is home to the communities of: District of Peachland, City of West Kelowna, Westbank First Nation, City of Kelowna, District of Lake Country, Central Okanagan West Electoral Area and Central Okanagan East Electoral Area. All have unique characteristics but are closely interrelated.

City of Kelowna

With a 2016 Census population of 127,380 the City of Kelowna is the largest city in British Columbia outside of Vancouver. With a diverse economy supported by quality post-secondary institutions, Kelowna has become the main marketing and distribution centre of the Okanagan Valley. Kelowna also has a thriving arts and culture scene combined with all the outdoor activities that make the Central Okanagan a must-see tourism destination, as well as a popular place to live.

City of West Kelowna

The West Kelowna District Municipality was incorporated on December 6, 2007 and received City status in 2015. West Kelowna is the second largest municipality in the Central Okanagan with a 2016 Census population of 32,655. The communities within the City include Westbank, which comprises just under half of the total population -- Shannon Lake, Glenrosa, Casa Loma, West Kelowna Estates, Rose Valley and Lakeview Heights. West Kelowna borders two self-governing reserves of the Westbank First Nation, Tsinstikeptum #9 and Tsinstikeptum #10.

Westbank First Nation

Westbank First Nation (WFN), located on the west side of Okanagan Lake, provides a unique economic climate to attract business and investment. A Self-Government Agreement between WFN and Canada has significantly improved the fiscal and legal certainty for investors on WFN Lands. WFN has the rights, powers, responsibilities and privileges of an owner, including the authority to grant interests and licenses in relation to its land. There are four designated parts of the First Nation, however, the resident population lives within two Census Subdivisions, Tsinstikeptum 9 and Tsinstikeptum 10, both of which are bordered on all sides by the City of West Kelowna.

There are 855 Members of Westbank First Nation. An estimated 9,000 non-Member residents make their home on WFN lands through one of the most sophisticated land lease systems in Canada. A population growth rate of 27.9% makes WFN the fastest growing community in the Central Okanagan.

District of Lake Country

The District of Lake Country has a 2016 Census population of 12,922. Located between Kelowna and Vernon, Lake Country is comprised of four separate communities: Oyama, Carr's Landing, Okanagan Centre, and Winfield. The communities are closely interrelated but unique in their own right. Like other areas in the Central Okanagan, the area's population growth has resulted in significantly increased residential and commercial activity, and continues to grow and evolve.

District of Peachland

The District of Peachland has a 2016 Census population of 5,528. Peachland is the southern-most community in the Regional District and is located 22 km south of Kelowna on the west side of Okanagan Lake. Over the past few years, Peachland has undergone a major development program, including improvements to transportation, municipal services and additional residential, commercial and retail facilities.

Central Okanagan Electoral Area – East

With a 2016 Census population of 3,824 the Central Okanagan Electoral Area East encompasses the scenic rural east side of Okanagan Lake. This electoral area sits outside the City of Kelowna and District of Lake Country. Its two largest communities are: Ellison, located to the northeast of Kelowna on Old Vernon Road; and Joe Rich, located 24 km east of Kelowna on Highway 33.

Central Okanagan Electoral Area – West

Central Okanagan Electoral Area - West is tranquil rural countryside on the west side of Okanagan Lake. Wilson's Landing is located 14 km north of the intersection of Highway 97 and Westside Road and 20 km from Kelowna. Other communities along picturesque Westside Road include Traders Cove, Killiney Beach, Westshore Estates, Fintry, and Valley of the Sun. The 2016 Census population is 1,981.

Objectives:

The project is intended to provide strategy and recommended tactics for the Regional District of Central Okanagan's Economic Development Commission (COEDC) to ensure growth and sustainability in the economy. As the region, country and globe continue to grapple with economic challenges; the question is raised as to what the community can do at the regional level from an economic development perspective. The COEDC 2020-2025 Economic Development Strategy which is to include implementation plan, recommendations, required resources, schedule, and assessment guidelines, will provide a strategy and measurable implementation plan for the RDCO's EDC (COEDC).

Key objectives of the project are:

Provide direction and clarity to guide the region to meet its economic potential

By assessing the competitive position of the region and examining core competencies of key sectors and sub-sectors the COEDC aims to enhance capacity within the region, facilitate partnerships between firms to increase capacity and identify opportunities for growth and scale.

Ensure that Regional District of Central Okanagan and member communities are investment-ready

The COEDC would like to ensure that it is well-prepared to accommodate new investment. The strategy will address the value proposition of the Region and the other major components of readiness with respect to the Region's competitive position.

Scope of Work:

The scope of the project will include: looking at where we are now, through background research and economic analysis; the prioritization of future directions and the development of a 'road map' which will provide direction for the short and medium term with an associated action plan for the five years including performance measures. The strategy and action plan should be aligned with existing operational resources, other regional long term strategies, federal, provincial, and local government priorities, and address areas where economic development can have influence and achieve results.

In addition, provincial and federal long term strategies and funding announcements should also be examined in relevant areas, for example, infrastructure, transportation, energy and innovation.

The consultant's scope of work shall comprise of the following:

1. Economic Base Analysis

As an initial step, an Economic Base Analysis using existing resources and secondary resources should be developed to provide an overview of the Central Okanagan's economy, including regional competitiveness and trend analysis, and value proposition, and will be a foundational document at the start of the project.

2. Road Map and Action Plan

The next stage will be to understand 'How do we get there?' over the next 5+ years. A Road Map should be developed to provide a high level overview with some identified areas of opportunity and direction setting as derived from the Economic Base Analysis. In compliment an Action Plan will define short, medium and longer term objectives and tactics in the key areas identified in the Road Map as well as providing associated performance metrics. The Action Plan tactics should identify the activities potentially owned by the broader Regional business community and those potentially owned by the COEDC. All activities and recommendations identified for the COEDC should be actionable within existing operational resource levels or identified as requiring increased resource levels.

3. Consultation and Meeting Requirements

Proposals must include a description of the number and type of meetings and stakeholder consultation opportunities proposed and should provide ample opportunity to engage and interact throughout the project work. The successful proponent will also be required to present the plan (approx. 60 min PPT) to Central Okanagan Economic Development Commission's Advisory Council at the completion of the project.

More specifically, the Economic Development Strategy should provide recommendations related to:

- Ways the Region/COEDC can best meet the challenges of shifting demographics to maintain and even improve attractiveness for investment.
- Ways the Region/COEDC can increase workforce development through recruitment and attraction.
- Ways the Region/COEDC can support cluster development for the top 3 industries as an element of economic development programs.

Deliverables:

A 2020-2025 COEDC Strategy which is to include implementation plan, recommendations, required resources, schedule, and assessment guidelines. The following bullets are part of the 2020-2025 Strategy:

- A PEST/SWOT analysis; including physical infrastructure, economic land assets, natural assets, local institutions, economic drivers, historical and cultural features, and human assets.
- Regional Competitiveness and Trend Analysis; competitiveness analysis, enablers and inhibitors, and national and provincial trends comparison.
- Identification of constraints that impact the region as a whole and provide opportunities for regional economic development initiatives (*enablers and inhibitors*);
- Foreign Direct Investment Opportunities Matrix
- Economic Development Strategy is to contain an action plan to implement objectives and goals set forth in the Strategy as well as performance measures with timelines to evaluate whether, and to what extent, plan goals and objectives have been or are being met – this should align with existing operational resources and identify spheres of operation.

General/Misc. Scope of Work information:

- Three edit rounds by COEDC during drafting for report.
- The data and information collected will then be presented into a clear, easy-to-read report in electronic (Word and PDF) format. The report should be a balance of qualitative and quantitative information, presented in a visually-appealing format with infographics where appropriate.
- Report to include up-to-date photography and imagery. The Commission will provide the consultant with access to its image bank and other relevant material from partner regional organizations (i.e. Tourism Kelowna, Thompson Okanagan Tourism Association).
- Printing costs not included in Consultants' scope of work.

Budget

Not to exceed \$50,000 plus GST.

Lump-sum price required from Consultant.

COEDC Point of Contact

There will be one primary point (COEDC Staff) of contact for the Consultant

Timeline & Deliverables

Project completion by November 1st 2019.

Timeline	Activity
February 1 st 2019	Invite only RFP to selected potential Consultants as outlined in appendix.
4:00 pm PST March 1 st 2019	Deadline for RFP submissions.
April 1 st 2019	Contract awarded.
April 1 st 2019	Contract commencement.
April 1 st 2019 – June 14 th 2019	Project ongoing. Progress updates provided to COEDC project lead – 30 min phone call scheduled every two weeks between Consultant and COEDC project lead.
June 17 th 2019	Consultant to provide first draft to COEDC project lead for internal review and edits.
June 17 th 2019 – July 5 th 2019	COEDC project lead to liaise with internal team to review report.
August 2 nd 2019	Consultants to provide second draft of report to COEDC project lead for internal review and edits. Recommended that second draft from consultant include graphics and visual components of report.
August 2 nd 2019 – August 23 rd 2019	COEDC project lead to liaise with internal team to review report.
September 20 th 2019	Consultant to provide final draft to COEDC.

October 11 th 2019	COEDC to provide final edits to Consultant.
October 31 st 2019	<p>Final report to be provided electronically in Microsoft Word and PDF to COEDC project lead.</p> <p>The report is intended to be distributed by social media, RDCO_COEDC press release and COEDC newsletter. The report will be housed in the resources and/or about us section of the COEDC website www.investkelowna.com</p>

COEDC Economic Development Strategy

Presentation to Regional District of Central Okanagan, Governance & Services Committee

Presented by: Lauren Millier, MDB Insight

Date: June 13, 2019

Today's Agenda

- Economic Development Strategy 2020-2025 Project Overview
- Central Okanagan Businesses Survey
- Stakeholder Engagement Workshops Emergent Themes
- Q+A

Approach and Methodology

Phase 1: Project Initiation

Project Launch Meeting

Project Charter (workplan, engagement plan, report outline)

Phase 2: Where are we now?

Background Review

Economic Base Analysis

Economic Forecasts and Local Impacts of Market Trends

Phase 3: Where do we want to go?

Advanced Reconnaissance Interviews & Business Survey

Targeted Workshops

One-on-One Interviews

PEST/SOARR Assessment and Engagement Results Report

Phase 4: How to get there?

Regional Competitiveness and Trend Analysis

Matrix of FDI Opportunities

Establishing Economic Vision, Strategic Directions, Action Plan

Final Strategic Plan and Presentation

Central Okanagan Businesses Survey - Priority Matrix

Business Factors	Priority
Availability of skilled labour	1
Development charges and off-site levies	2
Availability of adequate housing	3
Availability of dark fiber network	4
Availability of property for purchase	5
Local roads and streets	6
Zoning	7
Provincial roads and highways	8
Municipal property taxes	9
Availability of space for rent or lease	10
Development/building permit process	11
Availability of health and medical services	12
Availability of unskilled labour	13
Cellular phone service	14
Water availability	15
Ability of Internet service to Support Current Business Needs	16
Availability of Internet service to Support Future Business Needs	17
Support from other businesses	18
Support from local residents	19

Discussion Focused on 3 Key Questions

1. What are the good news stories and key areas of strength for the economy of the Central Okanagan?
2. What challenges are limiting economic growth in the Central Okanagan?
3. What steps need to be taken to make the region more attractive to new businesses and retain existing ones? Near term? Longer term?

Good News Stories and Key Areas of Strength

- Strong base of infrastructure – airport, post secondaries expansion, Okanagan Innovation Centre, waterfront spaces and downtown cores, Agriculture Land Reserve
- Natural environment is a strong draw for talent and supports business investment
- Proactive approach to business and economic development coupled with community driven initiatives (i.e. Imagine Kelowna, COEDC Advisory Council)
- Diverse economy that includes value added agriculture, viticulture, aerospace and tech firms
- Increasing Western Canadian awareness of Region is assisting with talent attraction
- Increasing opportunities and diversity of occupations in the region helps retain workforce, graduates (i.e. talent can move employers within same industry without leaving region)
- Regional approach to economic development and tourism has paid dividends to communities

Challenges Limiting Economic Growth

- A need to increase connections between UBCO/OC and business community
- Region has low transition rates and low rates of education attainment at University or above (Kelowna CMA 21% compared to BC 30%*)
- Limited inventory of employment land for industrial development and competition for land limits business development/growth of existing firms
- Aging demographic (Median age 45.5 compared to BC 43; age groups 55-64, 65-74 & 75 + all larger than BC populations*)
- Lack of ethno-cultural diversity but signs of transition
- Small firm size concentration limits capacity to grow and attract talent
- Attracting and retaining workers tied to housing limitations and comparative wage levels
- Limited workforce availability – regardless of sector or job description
- Continued need for advocacy on a variety of local and regional needs

* Data from 2018 Central Okanagan Economic Profile available on COEDC website (www.21vestkelowna.com)

Steps to Make the Region More Attractive to Business

- Increase retention of postsecondary graduates, particularly international students
- Expansion of broadband network
- Innovative solutions for housing that supports workforce and student populations
- Succession planning across all sectors
- Tailored support for growth stage companies/industries to increase capacity for growth
- Salary and compensation levels need to adjust if the region is going to remain attractive
- Involve businesses in larger planning issues and decision-making (i.e. OCP, transportation, etc.)
- Improve advocacy at other government levels to increase investment into region, and to provide certainty and support for future investment to increase business sector confidence

Q+A

- Do these themes resonate?
- Considering the known challenges (i.e. Labour Force Development/Attraction; Smaller Firm Sizes; Housing Affordability, etc...), what are the opportunities you would identify for the Central Okanagan?

THANK YOU!

Lauren Millier, Executive Vice President, lmillier@mdbinsight.com

Governance & Services Committee

TO: Governance and Services Committee

FROM: Todd Cashin
Director of Community Services

DATE: June 13, 2019

SUBJECT: Agricultural Compliance and Enforcement Strategy

Purpose: To inform the Governance & Services Committee on the proposed Regional Agricultural Compliance and Enforcement Strategy.

Executive Summary:

Over the last number of years, staff have become aware of a significant increase in illegal activity on farm lands. In response, staff are proposing a comprehensive compliance and enforcement strategy that is aimed at consistency, effectiveness and fairness.

This Regional Agricultural Compliance and Enforcement Strategy will outline the Region's approach to its compliance goals, ranging from assisting property owners in understanding their obligations to comply with legislative requirements on agricultural lands and extends to monitoring compliance, performing inspection activities to the various tools available to respond to noncompliance.

RECOMMENDATION:

THAT the Governance & Services Committee receive the presentation from the Director of Community Services, dated June 13, 2019, regarding the Regional Agricultural Compliance and Enforcement Strategy for information.

Respectfully Submitted:

Todd Cashin
Director of Community Services

Approved for Committee's Consideration

Brian Reardon, CAO

Prepared by: Janelle Taylor, Planner

Implications of Recommendation:

- Policy: Receiving the presentation is in keeping with the Regional Growth Strategy Bylaw No. 1336 policies, including:
- 3.2.5.2 Preserve and support sustainable agricultural activities and land base that enhances local agriculture through the strengthening of best practices, support of local and regional food systems and the expansion of local food markets and agri-tourism.
 - 3.2.5.3 Encourage cooperation with the Agricultural Land Commission and the Ministry of Agriculture to promote consistency among bylaws, policies, regulations, and decisions that will be made regarding agriculture.
 - 3.2.5.6 Promote the use of agriculture and ALR lands for food production and ancillary agriculture processing and retailing consistent with uses outlined in the Agricultural Land Commission Act and Regulation.
 - 3.2.5.7 Protect the supply of agricultural land and promote agricultural viability.
 - 3.2.10.4 Support opportunities for regional partners to collaborate, communicate and coordinate on matters of regional significance.
 - 3.2.10.5 Encourage collaboration among the regional partners on long range land use, infrastructure and financial planning based upon projected growth, emerging priorities and the anticipated needs of communities.
-

Background:

Over the last couple of years, staff from the Regional District, our municipal partners and both Agricultural Land Commission and Ministry of Agriculture have become aware of a significant increase in illegal activity on agricultural lands. Staff are also keenly aware that there is a public expectation that illegal activities on farm land will be met with meaningful compliance or appropriate enforcement action. In response, Regional staff have started working on a strategy with respect to improving compliance and enforcing legislation and regulations if necessary.

This Regional Agricultural Compliance and Enforcement Strategy will outline the Region's approach to its compliance goals, ranging from assisting property owners in understanding their obligations to comply with legislative requirements on agricultural lands and extends to monitoring compliance, performing inspection activities to the various tools available to respond to noncompliance and will be aimed at consistency, effectiveness and fairness which can be expanded to other sectors of the Region as required.

Regional Growth Strategy

The Regional Growth Strategy (RGS) was adopted by the Regional District of Central Okanagan in 2014. The RGS outlines ten issues areas, including 'Our Food' and 'Our Governance'.

- Our Food contains policies to support the goal of a regional food system that is healthy, resilient, and sustainable.

The RGS outlines that the Central Okanagan has strong agricultural roots and this sector has been important in defining the region and its growth pattern. With changes in population, pressures of development, increased climate impacts, water pressures, and more focus on local food production for sustainability, these changes have raised more

awareness on food systems from cultivating and planting to consumption to the compost heap, and back again. Today, food policies appear on the agenda of dozens of municipal governments across North America and beyond. Future planning can help ensure food systems are adequately addressed in growth management decisions.

- Our Governance contains policies to support the goal of responding to the needs of the region with an effective and efficient governance service model.

The RGS outlines that the roles and services for a regional district are determined by its member jurisdictions; regional district's act only in response to the expressed needs, interests and instructions of their members and address issues that cross political boundaries.

The mission of a regional district is to help protect the quality of life for all citizens in the region by planning for the future. As the Region grows, there needs to be a balance of local autonomy with effective regional coordination in order to address environmental, economic, transportation and quality of life issues that cross local government boundaries. Long range planning for the Region is necessary to identify opportunities and build partnerships to protect the health and safety of current citizens as well as future generations that will live in the Region.

Regional Planning Lab

The RGS Priority Projects Plan was endorsed by the Regional Board in 2017. This 5 year action plan outlines priority initiatives for RDCO to implement based on the Regional Growth Strategy. The Regional Planning Lab is Project #2 of the RGS Priority Projects Plan.

Public servants from across the region are regularly struggling with common challenges and developing effective solutions. The Regional Planning Lab is a forum for those located around the region to work together on common issues. It is hoped that experiences and lessons-learned will be shared, and that relationships will be built across different organizations.

A Regional Planning Lab took place on April 24, 2019, to discuss land use compliance within the Agricultural Land Reserve. Attendees included staff from the Agricultural Land Commission, Ministry of Agriculture, District of Peachland, City of West Kelowna, City of Kelowna, District of Lake Country, and Regional District. During the Lab, it was discovered that jurisdictions throughout the Central Okanagan are struggling with a multitude of similar agricultural compliance issues. Examples of uses which negatively impact land meant for food production include depositing substantial amounts of unsanctioned soil/debris; operating commercial businesses which require storage of vehicles and materials; storing vehicles; constructing winery/cidery/brewery/cannabis facilities with significant building footprints.

The Lab concluded with participants encouraging the region to move forward with consideration of a regional agricultural compliance coordination strategy.
