Subject: Covenant Release application - Lakeshore Road, Kelowna BC

Hello Tom,

I have completed my review of this covenant release application (lot 4, District Lot 2724S, SDYD, Plan 34913) and am of the opinion that sufficient evidence has been provided to support that public health will still be protected if the covenant is released.

As such, you can prepare a form C release document and I will send it for signing.

Please quote IHA file # NX2023-145269 when sending along the document.
