- a. Additional debt required to fund anticipated 2021 projects. IHA has indicated that there are potential large project requests coming in the next 10 years.
- b. Assumes assessment growth of 1.0%
- c. MFA Actuarial Amounts: Actuarial Interest Revenue is offset by an equal reduction to debt.
- d. IHA has indicated that they have ongoing equipment and infrastructure replacement needs. Any additional funds are placed in reserves to assist in avoiding additional debt in the future, or to pay down debt on refinancing.
- e. In 2019, the average equivalent house valued at \$741,000 would have paid \$183.35 at a tax rate of \$0.2481/\$1000 of assessment.
- f. Includes IHSC Project: In 2017 IHA advised that construction uncertainties had been removed and contingencies were reduced. Projected reduction was \$9.187 million. This amount was removed from the budget estimates for future project costs and debt financing. The approved project bylaw was not reduced. The remaining costs in 2020 are expected to be less than \$100k as the project wraps up.
- g. The Public Sector Accounting Standards require reporting of Accumulated Deficit/Surplus, which will be available in the Year End CORHD Financial Statements. One of the primary purposes of the budget is to calculate required requisitions and ensure adequate cash flow. For example, CORHD must have enough cash to pay both principal and interest on debt, but PSAS only allows for the expensing of interest. A comparison of budget to actual for 2019 is provided during budget discussions to reflect differences in funding and expenditures. Revenues and Financing balance to Expenses and Debt Payments. As a result, there is no prior year surplus or deficit shown for budget purposes.
- h. Additional temporary interest prior to borrowing.
