Mayors and Regional District Chairs of British Columbia

Dear Mayors and Chairs:

I am pleased to announce that the Province of British Columbia recently launched the CleanBC Roadmap to 2030. Building on actions in our 2018 CleanBC plan, the Roadmap to 2030 is a stronger, more ambitious climate plan to reach our 2030 emissions reductions targets and build a strong, low-carbon economy.

The Roadmap to 2030 includes actions across eight pathways including: low-carbon energy; transportation; buildings; communities; industry; agriculture, aquaculture and fisheries; forest bioeconomy; and negative emissions technologies. Highlights of the Roadmap include:

- New requirements to make all new buildings net-zero emissions by 2030
- A nation leading adoption of zero-emission vehicles with 90 percent ZEVs by 2030 and 100 percent by 2035
- An accelerated shift towards active transportation and public transit
- A commitment to increase the price on carbon pollution to meet or exceed the federal benchmark, with supports for people and businesses
- Requirements for new industry projects to have enforceable plans to reach net-zero emissions by 2050
- Stronger regulations that will nearly eliminate industrial methane emissions by 2035
- Increased clean fuel and energy efficiency requirements
- A Clean Transportation Action Plan will support emission reductions by focusing on efficiency-first transportation options

Local governments across B.C. have consistently shown leadership and commitment to taking action on climate change. Continuing the partnership between local governments and the province is key to achieving our shared goals. The Roadmap to 2030 highlights the prominent role that communities have in reaching those goals and commits to establishing a new program in 2022 to support local government climate actions through flexible, predictable funding.

.../2

The expanded climate actions in the Roadmap to 2030 will accelerate our transition to a net-zero future and ensure we meet B.C.'s legislated greenhouse gas target of 40 percent below 2007 levels by 2030. To learn more and to read the CleanBC Roadmap to 2030, please visit: www.cleanbc.gov.bc.ca and read the [news release](#).

I would also like to share with you the [2021 Climate Change Accountability Report](#). The report includes detailed information on CleanBC progress over the 2020-2021 period to reduce carbon pollution, prepare for climate impacts and create low-carbon economic opportunities for people across B.C. It also includes emissions data for the 2019 reporting year.

Sincerely,

Josie Osborne
Minister
