

Crime Stoppers Month

**Celebrating
the most
successful
community-
based
crime
stopping
program in
the world**

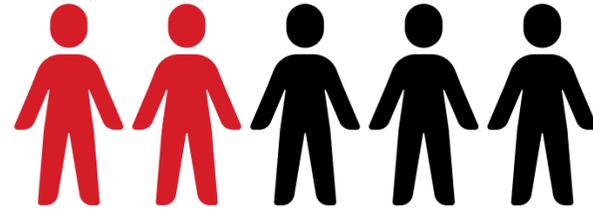

How did it start?

A college student was shot to death during a robbery in 1976 at a gas station in Albuquerque, New Mexico. It seemed that the death would remain a mystery until young Detective Greg MacAleese encouraged the public to get involved. He conceived the idea of a video re-enactment offering anonymity and a reward from his own pocket. It worked. Within a few hours of the broadcast, a tip was received that helped solve the murder case and a string of armed robberies.

The rest is history.

**Today
there are
Crime
Stoppers
programs
worldwide**

Central Okanagan Crime Stoppers began in 1987 when a Kelowna City Councillor (Elise Clarke) felt the need to create a local program. Talks began with the RCMP and a City of Kelowna program was created. In 1988 the program became an RDCO program and Central Okanagan Crime Stoppers was born.

This year marks our 35th anniversary!
