

Schedule C – Photographable Support

**2570 Old Vernon Road
Photographs in Support of Non-Adhering Residential Use
Application by John and Alexandra Wright**

Photograph # 1

Location of Proposed Shop and Accessory Home (facing north).

Shop will be placed with its center approximately between the tractor bucket and pile of dirt.

Photograph # 2

Location of Proposed Shop and Accessory Home (facing east).

Shop will span from forefront to approximately 10 feet in front of existing residence. Existing house shown to the right, front 10-acre field of cherries shown in the distance, animal paddock fencing shown on left.

Photograph # 3

Location of Proposed Shop and Accessory Home (facing south).

Shop will be placed in forefront. Existing house shown on left, property gate and fence shown in distance, abandoned sawmill shown to left in background. Original asphalt laneway shown entering from gate and heading due north.

Photograph # 4

Location of Proposed Shop and Accessory Home (facing west).

Shop will be placed in forefront. (Personal use crab apple tree and berry bushes to be relocated prior to construction.) Original farmhouse shown in background - This is currently used for honey spinning, farm office work, farm storage and vegetable processing. To the right is the garage which functioned as a farm stand for 3 years. Original asphalt laneway shown in front of original house and garage.

Photograph # 5

Current storage shed (facing northeast).

To be torn down once farm shop is built, about ½ acre of fruit trees to be planted.

Photograph # 6

Current storage shed (facing north, other side view) – also seen chicken coop in foreground

Current tractor implements laydown area shown due north, adjacent to predator fence. Chicken coop to be moved and shed to be torn down once farm shop is built, about ½ acre of fruit trees to be planted in its place.

Photograph # 7

Front field (3 rows of peach trees with 10 acres planted cherry trees directly behind) – east facing view.

To right and along back is predator fencing with the access lane to property on the righthand side behind fence. Feedlot shown in background on righthand side, four houses on 2 small parcels shown on left.

Photograph # 8

Back field (3 acres cherries in foreground, 3 acres apples in background) – west facing view.
Property behind is a single-family residence with an in-law suite.

Photograph # 9

Heated 35' x 100' x 2 greenhouses (northwest facing view).
